Subject: Applications for entrance
to the Kadoorie Agricultural
School.

Reference: Your Ag/24/1 of 15.8.37.

23rd August 1937

Acting Agricultural Officer,
Southern District, Jaffa.

In reply to your letter under reference,
I would remind you that the existing conditions
of entry to the Kadoorie Agricultural School,
Tulkarm, state that "applicants must be of
Palestinian Arab nationality". It would therefore
be necessary to obtain the Chief Secretary's
permission for Ghazi Urfali to apply for entry
to the Kadoorie School.

2. It is suggested that under the present
circumstances it would be best to defer such action
for the present.

A/AGRICULTURAL OFFICER,
SOUTHERN DISTRICT.

Encl: 1.

THE KADOORIE ARAB AGRICULTURAL SCHOOL,
TULKAREM.

Applications are invited from Palestinian Arabs for admission to the above school which is to be opened during the forthcoming autumn at a date which will be later notified.

A residential Senior Course of three years will be offered to fifteen students of from seventeen to nineteen years of age, and a residential Junior Course of one year to twenty-five students of from fifteen to seventeen years of age.

Fees, which are payable in advance, will amount to LP.20 per annum for tuition, board and residence. Students will, in addition, be required to contribute LP.2 per annum towards the costs of games and recreation, and to deposit LP.1 per annum to cover costs of breakages or damage for which they may be responsible.

There will be three school terms in each year, viz:-

3000

1st September	to 31st November.
15th December	to 15th March.
1st April	to 30th June.

Long Vacation will be taken during July and August. Lectures will be reduced during Ramadan and four days special holiday will be given during the two Beiram Feasts.

Applications for admission should be addressed in the candidates' own handwriting to the Director of Agriculture and Forests, Jerusalem, before the 31st July, and must clearly state:-

1. Applicant's full name and address.
2. Age last birthday, to be confirmed by documentary evidence in the case of approved candidates.
3. Father's name, address and occupation.
4. Applicant's school history.

Applicants for admission to the Senior Course should have completed at least half the Government's secondary school course, or its equivalent, with four years' science including one year's botany and one year's zoology. Applicants for admission to the Junior Course should have completed the Government's elementary course with two years' elementary science.

Preference will be given to sons of cultivators and landowners. The Junior Course is intended solely for students who intend to take up agriculture for a livelihood.

Further information will be made available in a detailed syllabus which will be obtainable upon application to the Director of Agriculture and Forests, Jerusalem.

DIRECTOR OF LANDS,
JERUSALEM.

With reference to the attached copies of correspondence and plan: can you please state whether:

- (a) A recent extension of the railway boundary to include a strip of land earlier embraced by the approved plan for the farm school, has been effected with your approval?
 - (b) Such strip has been purchased and paid for from the Kadoorie Trust Funds, and, if so, whether recovery can be effected?
 - (c) The new station boundary runs with the western boundary of the school-farm, as expropriated by your department?
2. Kindly return the plan after perusal.

Subject: Agricultural School - Tulkarem.

I am in receipt of a letter from the schoolmaster of the above-mentioned school, stating that personnel of your Department have moved the boundary pegs to the east, thereby encroaching on 4 dunams, sown with clover that has been expropriated from Tulkarem land-holders.

Can you adjust this please?

Subject : Agricultural School, Tulkarem.

Reference: Your 274/31 of 22.2.1928.

I have enquired into the matter about which the Schoolmaster of the Tulkarem Agricultural School complained and find that the Railway boundary posts as previously placed were found, on survey, not to coincide with the station boundary as shown on the Hijaz Railway plan. The posts were accordingly moved out about 10 metres on a length of about 365 metres to put this right.

2. For your information I forward a print of my plan No.E/25/4 of 20.10.27. which shows the boundaries of Tulkarem Station. The large rectangular salient on the West side is rented, but all the rest is Railway property.

3. I shall issue instructions that the clover crop which stands on the 4 dunams which have been included within Railway limits must not be touched until it is reaped by your Department.

4. In the meantime I would suggest that the Kushan and transfer deeds appertaining to the appropriation by your Department be scrutinised to ascertain whether those from whom the land for the School was acquired did not indicate their Western boundary to be within the area which they had every reason to know was taken by the Turkish authorities for the Station premises.
